

MEDI-CAL/MEDICARE DUAL ELIGIBILITY BY AGE

BY COUNTY

JANUARY AND JULY 2011

Analytic Notes

Medi-Cal/Medicare dual eligible counts are reported only for January and July of each year.

Medi-Cal/Medicare Dual Eligibility

Dual Eligibility for Medi-Cal beneficiaries is determined by the Medicare enrollment status. Medi-Cal beneficiaries who are also enrolled in any one or combination of the following: Medicare Part A, Part B, or Part D, are considered dually eligible for both Medicare and Medi-Cal.

Data Source

Counts are based on data obtained from the MEDS Eligibility System, MMEF File. The universe of users of services reported in these tables is comprised of certified Medi-cal beneficiaries. Certified beneficiaries are those individuals enrolled in Medi-Cal without an unmet share of cost obligation. The reports do not include enrollment for recipients of FPACT family planning services or maternity care provided under presumptive eligibility.

Beneficiaries usually are eligible for Medi-Cal before the eligible month. However, a significant percent of all eligibles become eligible retroactively, for instance, due to meeting share of cost requirements and late Medi-Cal applications (e.g., after medical costs are incurred). The effect is a significant growth in eligibility counts after a given month of eligibility. Due to the significant amount of retroactivity that occurs, RASS recommends a 12-month lag to ensure data completion of the monthly eligibility counts. Enrollment counts reported here for January have a six month lag and the counts for July have a zero month lag. Therefore, the counts are not considered complete and should be used with caution. When the data become available the counts will be updated to a 12 month lag.

Data in tables have been aggregated to comply with the California Welfare and Institutions Code, section 14100.2, and the HIPAA Privacy Rule, 45 CFR, Parts 160 and 164, which are designed to safeguard Protected Health Information and Personal Confidential Information.
