

We've heard about how the pandemic and the economy will define the landscape of 2021.

Questions: What are your key take-aways? What requires engagement or action? (Type answer in chat)

It's going to be a huge challenge to reach isolated and homebound seniors and especially seniors of color for the vaccine -- we need "all hands on deck"

good investment

More focus must be put on vaccinating Elders of Color that don't have internet access

The digital divide needs to be addressed. For those who don't have a smart phone or a computer ... or don't know how to use them, what outreach methods are being used?

Too many people think that after they get the vaccination, they won't have to wear a mask! Much more is needed on what changes and what doesn't with vaccination.

That we stay on top of the vulnerable population regardless of ethnicity so that some are not lost in the process. That we take more extensive measures in making sure ALL seniors have access to the vaccine. We must know our people in the various districts & their needs.

I think there is a lot of misinformation that our seniors are affected by, we cannot do enough to make sure that they informed with the truth.

Serious focus is needed on the uneven economic recovery (K shaped)

Collaboration, transparency, and policy and planning. Team work makes the dream work!

Our unstable economy will create a greater need for services. So, we need to strategize to make sure that we can continue to provide services needed.

Senior Engagement, Connection, especially those isolated. Helping them become tech connected or connected to support. Also outreach to Communities of Color for the vaccine education, access and support.

Integrating social services into healthcare care planning.

understand that the CBOs are employers helping the economy!

Address housing, food, & health care challenges faced by senior with the Pandemic. Eviction moratoriums kick the can down the road. Practically, how are people going to catch up on their rent. Who is "policing" landlords?

MAKING THE DIFFERENCE
